

Charlie's Story

Charlie is a 4yr old NSDTR who has come into rescue after his previous owners decided that he was no longer happy in their family environment, and he had started displaying some bad behaviour.

Circumstances at home made it impossible for them to keep Charlie, so he is now staying with Helen Withey at the Harrow Training Centre for assessment and training, and will be re-homed from there when appropriate.

Charlie is already responding very well to his training as you can see from the following photos, and is a typically energetic happy Toller who gets on well with other dogs.

Update July 2009

Charlie was successfully rehomed in January 2009. After an initial settling in period his new owner has been attending agility classes regularly and is looking to compete in open shows soon.
